

Project: Rehabilitation of Lehi City's Economic and Historic Downtown Core

Recipient: City of Lehi

Location: Lehi, Utah

Purpose: The requested funds will provide for the rehabilitation and construction of curb, gutter, sidewalks and storm drain improvements in Lehi's economic and historic core. The project will revitalize and assist in the redevelopment of the community's downtown neighborhoods and commercial district, eliminate blight and develop storm drain improvements which will assist in the reclamation of storm water that will be injected into the city's secondary water system. The improvements will also provide additional safety sidewalks along a series of key pedestrian routes to Lehi High School.

Amount: \$726,125
